DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 11/23/05 has been entered.

Allowable Subject matter

2. Claims 1-27, and 29-41 are allowed.

The following is an examiner's statement of reasons for allowance:

3. As per **claims 1, 5, 11, 17, 23, 25 and 29**, the instant application is deemed to be a non-obvious improvement over the invention presented in US Patent No. 5,619,709, Caid et al.

As per claims 1, 5, 17, 23, and 29, the improvement comprises identifying a directed set of concepts as a dictionary, the directed set including a maximal element and at least one concept, and at least one chain from the maximal element to every concept, selecting a subset of chains to form a basis for the dictionary, measuring how concretely each dominant phrase is represented in each chain in the basis, as taught in the specification, and the dictionary, and constructing at least one state vector in the topological vector space for each dominant phrase using the measures of how

concretely each dominant phrase is represented in each chain in the dictionary and the basis.

Claim 11, includes an improvement of identifying a directed set of concepts as a dictionary, the directed set including a maximal element and at least one concept, and at least one chain from the maximal element to every concept, selecting a subset of chains to form a basis for the dictionary, measuring how concretely each dominant phrase is represented in each chain in the basis, as taught in the specification, and the dictionary, and constructing dominant phrase vectors in the topological vector space for the dominant phrases using the measures of how concretely each dominant phrase is represented in each chain in the dictionary and the basis.

Claim 25, includes an improvement of having state vectors measuring how concretely each phrase extracted by a phrase extractor is represented in each chain in a basis and a dictionary, the dictionary including a directed set of concepts including a maximal element and at least one chain from the maximal element to every concept in the directed set, the basis, as taught in the specification, including a subset of chains in the directed set.

4. **Claims 2-4, 6-10, 12-16, 18-22, 24, 26,27, and 30-41** further limit their parent claims and therefore are allowed.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2654

6. Claims 1-27, and 29-41, have been renumbered as claims 1-40.
